🌐 Portfolio

Technical Skills

- **Programming Languages:** C, C++, Java, Python (Basic), SQL
- **Computer Science Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks
- **Web Technologies:** HTML, CSS, JavaScript
- **Machine Learning:** Machine Learning Basics
- **Backend:** Backend (Basic)
- **Databases:** MySQL
- **Developer Tools:** Git, GitHub, VS Code, Vercel

Projects

PinkCare AI | *Python, Flask, HTML, CSS, Machine Learning* | GitHub | Live Demo

- Developed an AI-based healthcare application that predicts possible diseases from user-entered symptoms.
- Integrated a trained machine learning model with a Flask backend to generate disease predictions.
- Designed a responsive web interface using HTML and CSS for simple and accessible interaction.

Ganga River Monitoring System | *HTML, CSS, JavaScript* | GitHub | Live Demo

- Developed a web platform for reporting and monitoring river pollution incidents.
- Implemented structured reporting forms to collect pollution details and improve issue tracking.
- Deployed the application using Vercel for public accessibility.

Recipe Hub | *HTML, CSS, JavaScript, REST API* | GitHub | Live Demo

- Built a recipe search application to discover recipes using keyword-based search.
- Integrated a public REST API to dynamically fetch recipes, ingredients, and instructions.
- Designed a responsive interface for improved usability across devices.

CrowdDetect | *Python, YOLOv8, Computer Vision* | GitHub

- Developed a crowd detection system to identify and monitor people in images or video streams.
- Integrated YOLOv8-based object detection for crowd analysis.
- Built a web-based interface to display crowd detection results and improve monitoring.

Certifications

- **Google Data Analytics Professional Certificate** – Google
- **Python Essentials 2 Certification** – Cisco Networking Academy (2025)
- **24-Hour Hackathon Certificate** – College Hackathon Participation

Achievements

- Achieved **CGPA: 9.80/10** in B.Tech Computer Science Engineering.
- Solved 150+ Data Structures and Algorithms problems on LeetCode and HackerRank.
- Built and deployed multiple software projects using GitHub and Vercel.

Education

Banasthali Vidyapith

Bachelor of Technology in Computer Science Engineering (CGPA: 9.80/10)

Class XII (CBSE)

93%

Class X (CBSE)

94%

Rajasthan

2024 – 2028

2023

2021

Relevant Coursework

- Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems
- Operating Systems, Computer Networks, Computer Organization and Architecture
- Software Engineering, Machine Learning Fundamentals
